Online Master of Business Administration

Thrive in the Ever-Changing Business World

St. Bonaventure's online Master of Business Administration program will help you become an agile and transformative business leader. The program is carefully designed to reflect the real world where business functions interact. Regardless of your undergraduate background, you'll cultivate interdisciplinary knowledge, expand your network, and build extraordinary confidence.

Earning an AACSB-accredited online MBA from St. Bonaventure will prepare you to excel in any business environment. Our MBA program comes with something else companies desire in employees today: a skill set resting on pillars of compassion and integrity. As a St. Bonaventure graduate, your decision-making will be influenced by the moral and ethical values that define Franciscan tradition.

- **Advance Your Skills** — Develop the skills that matter to employers and your future: essential business competencies, critical thinking, problem-solving, and communication.

- **Cultivate Specialized Knowledge** — Become proficient in one of the most important areas of business to stand out and enhance your existing expertise.
- **Lead More Effectively** — Grow your understanding of business operations and the fundamental functions of management to take on more responsibility and improve your leadership potential.
- **Improve Decision Making** — Understand the interaction among business functions to better assess the full organizational impact of your decisions.
- **Employ a Different Way of Thinking** — Gain perspective on the big picture to overcome business challenges with a global mindset.
- **Practice Ethically** — Learn how to make moral and ethical decisions consistently.

Curriculum

The program provides cross-platform and individualized pathways that focus on experiential learning. You'll develop essential business competencies before deciding whether to specialize in Business Analytics, Finance, or Marketing or opt for our General MBA track incorporating electives across each of the three specializations.

Foundation Courses	The Business Core & Capstone	Graduate Electives and Concentrations
--------------------	------------------------------	---------------------------------------

Foundation Courses

(9 credits)

Foundation courses ensure preparation for upper-level courses. Some of these courses may be waived based on prior schooling and/or work experience.

MBA 515F | INTRO TO BUSINESS ANALYTICS I

This course aims to introduce the student to the mathematical and statistical basis for managerial decision making. After a review of basic algebraic tools, functions, exponentials, logarithms, and elementary series, we will consider the basics of financial mathematics, the theory of interest rates, and introduce the elements of limits and differential calculus. The statistical part of the course with an analysis of measures of central tendency, variation, and other summary statistics. This course also covers a priori probability and probability distributions; estimation, hypothesis testing, and an introduction to regression analysis. Emphasis is centered on the use of these techniques in data analysis.
